Subject: Re: Solicitation SP0600-05-R-0700

John

As you are aware we continue to deliver DESC product as requested so therefore our letter is valid and will continue to remain so for the balance of this solicitation and the next. I have had numerous discussions on this with the General who has spoken to the Minister. As you are aware this is a sensitive issue in Jordan and they would prefer to keep it as low profile as possible!!

Regards
Harry

Subject: Solicitation SP0600-05-R-0700

Dear Mr. Mauco,

Regarding your Letter of Authorization (LOA) for subject solicitation, were you advised by a representative of the Jordanian Ministry of Energy that the LOA dated May 20, 2004, (attached below) is still considered current by the Ministry of Energy and, if so, could you provide me with the name of the representative with whom this was discussed?

I have not been able to get confirmation with the US Embassy on this matter yet and this information should be helpful in resolving the matter.

Sincerely,

John R. Walker
