# Evolution of Media Value Chain

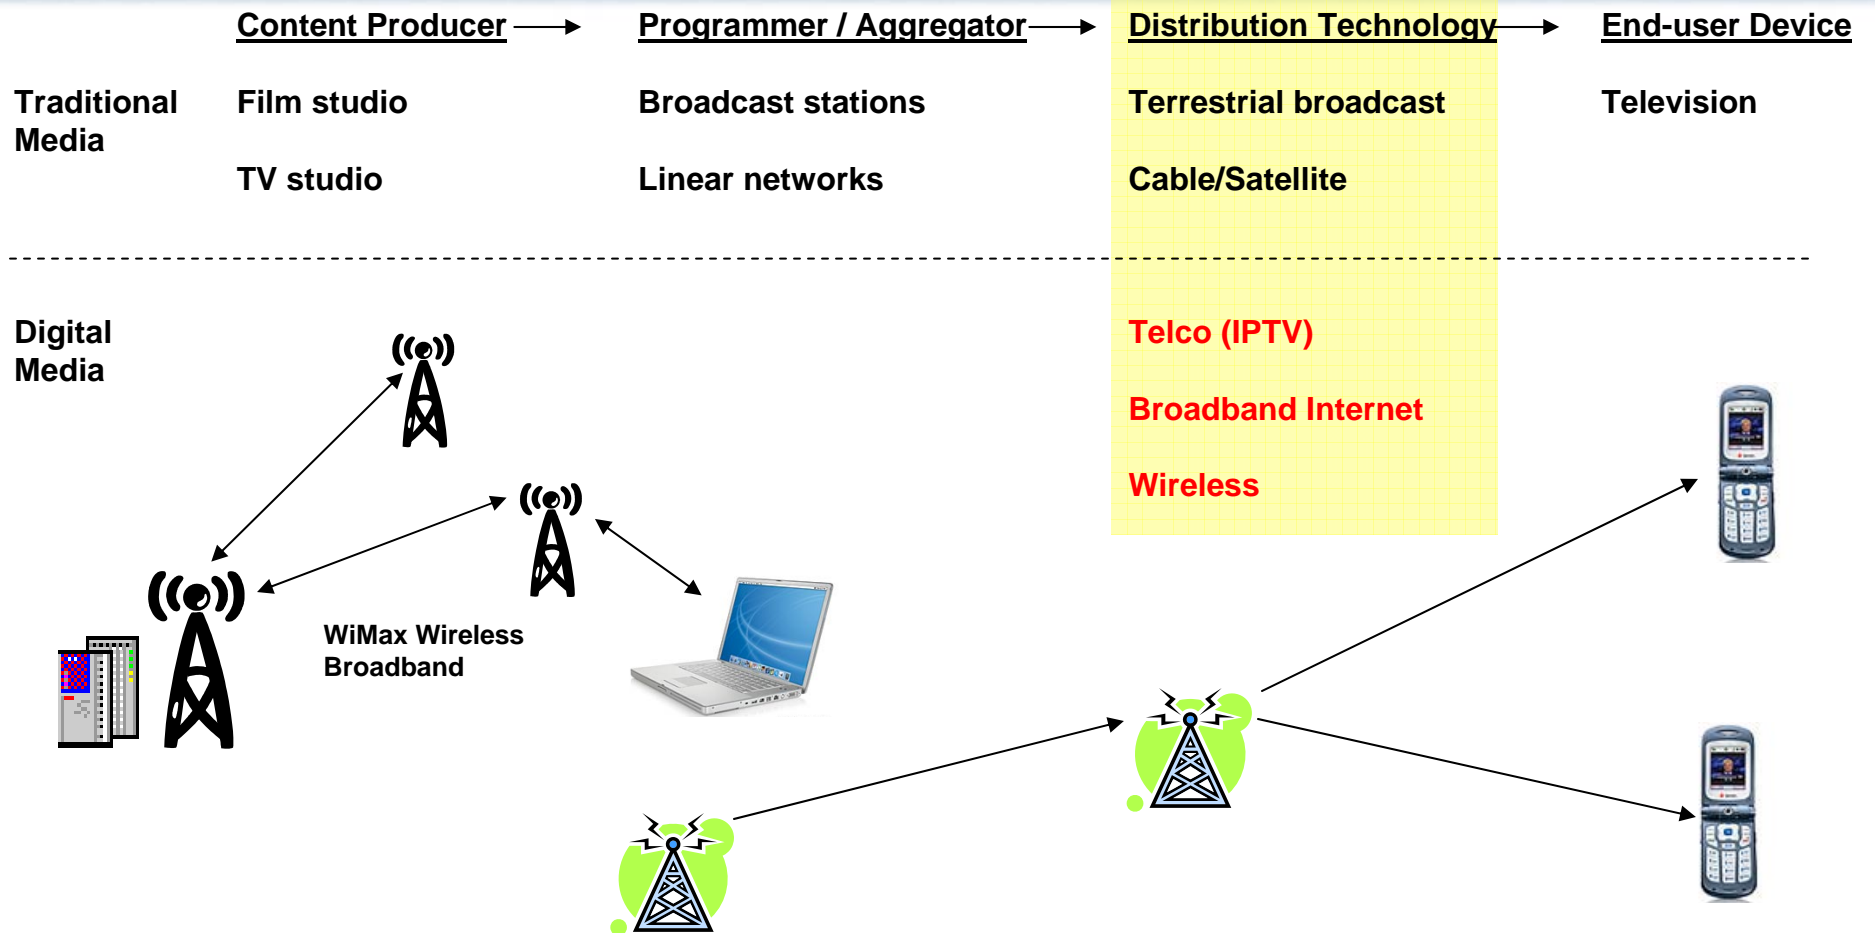

# Evolution of Media Value Chain

	<u>Content Producer</u> →	<u>Programmer / Aggregator</u> →	<u>Distribution Technology</u> →	<u>End-user Device</u>
Traditional Media	Film studio	Broadcast stations	Terrestrial broadcast	Television
	TV studio	Linear networks	Cable/Satellite	
Digital Media	VBloggers	On demand services	Telco (IPTV)	Computer
	Mobile producers	Websites	Broadband Internet	Portable Device
	Games developers	Mobile providers	Wireless	
	Interactive apps developer	Portals / search engines		

Technology has increased competition, creating more content producers, different types of programmers and aggregators that can be accessed through more distribution technologies and end-user devices

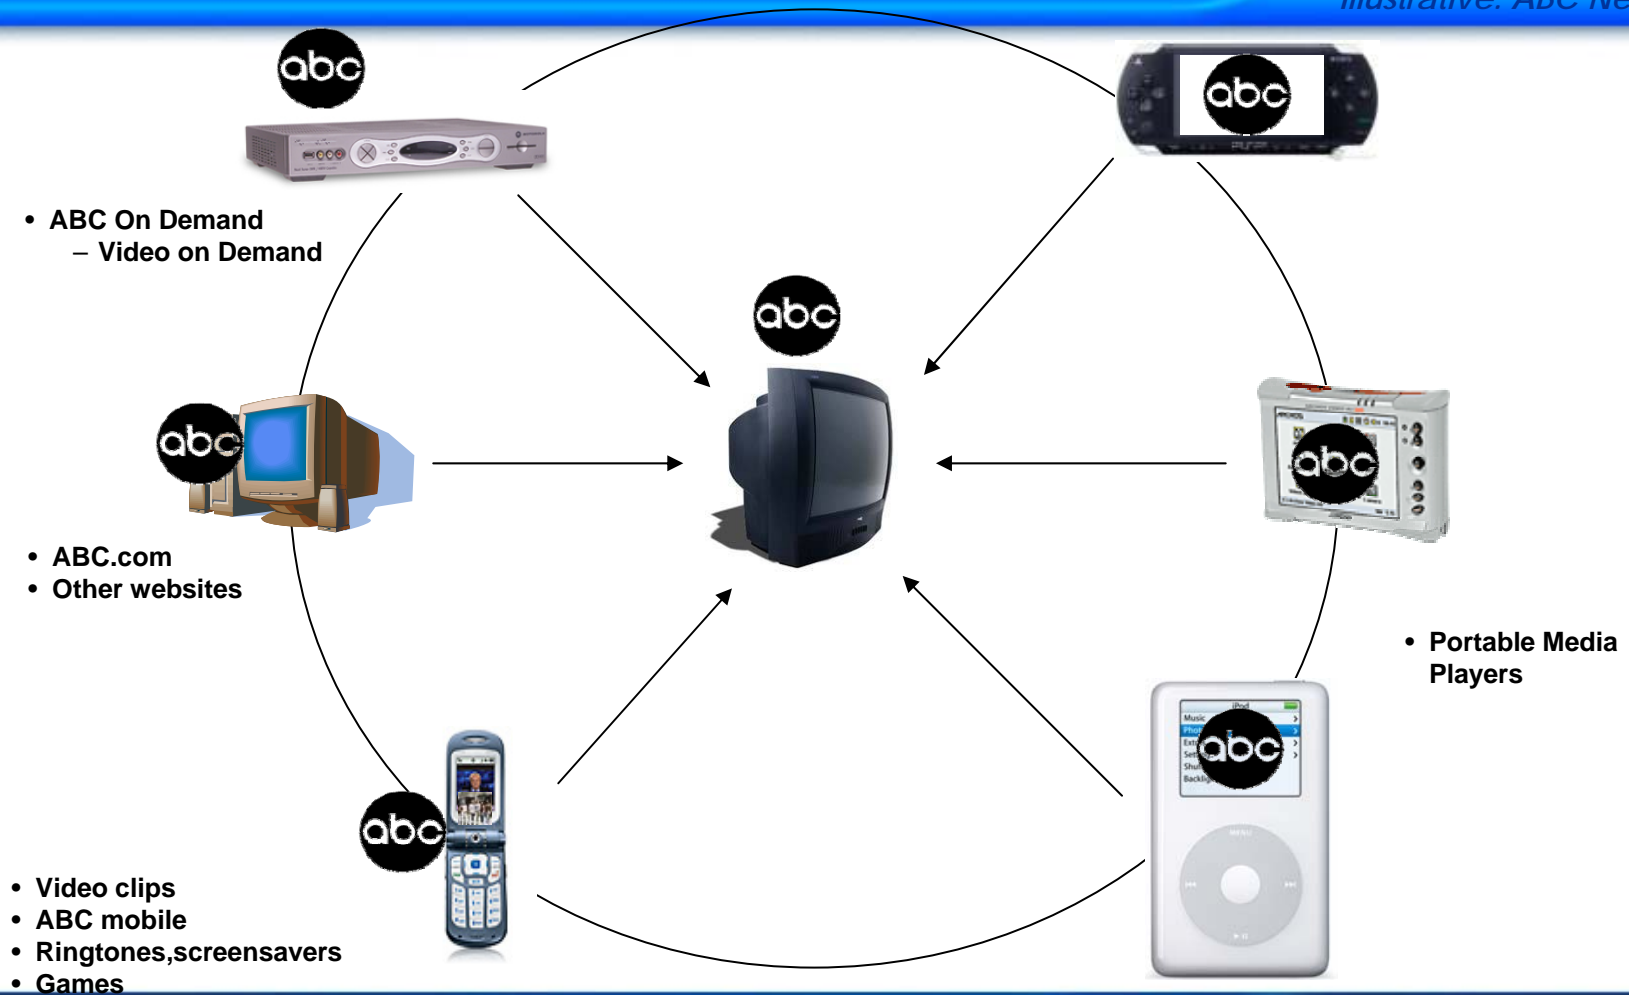

# Strategy

- Invest in quality content
- Create great consumer experiences
- Redefine the network
- Maximize technology
- Sharpen the brand
- Move towards interactive advertising
- Offer flexibility in business models
- Establish selective partnerships

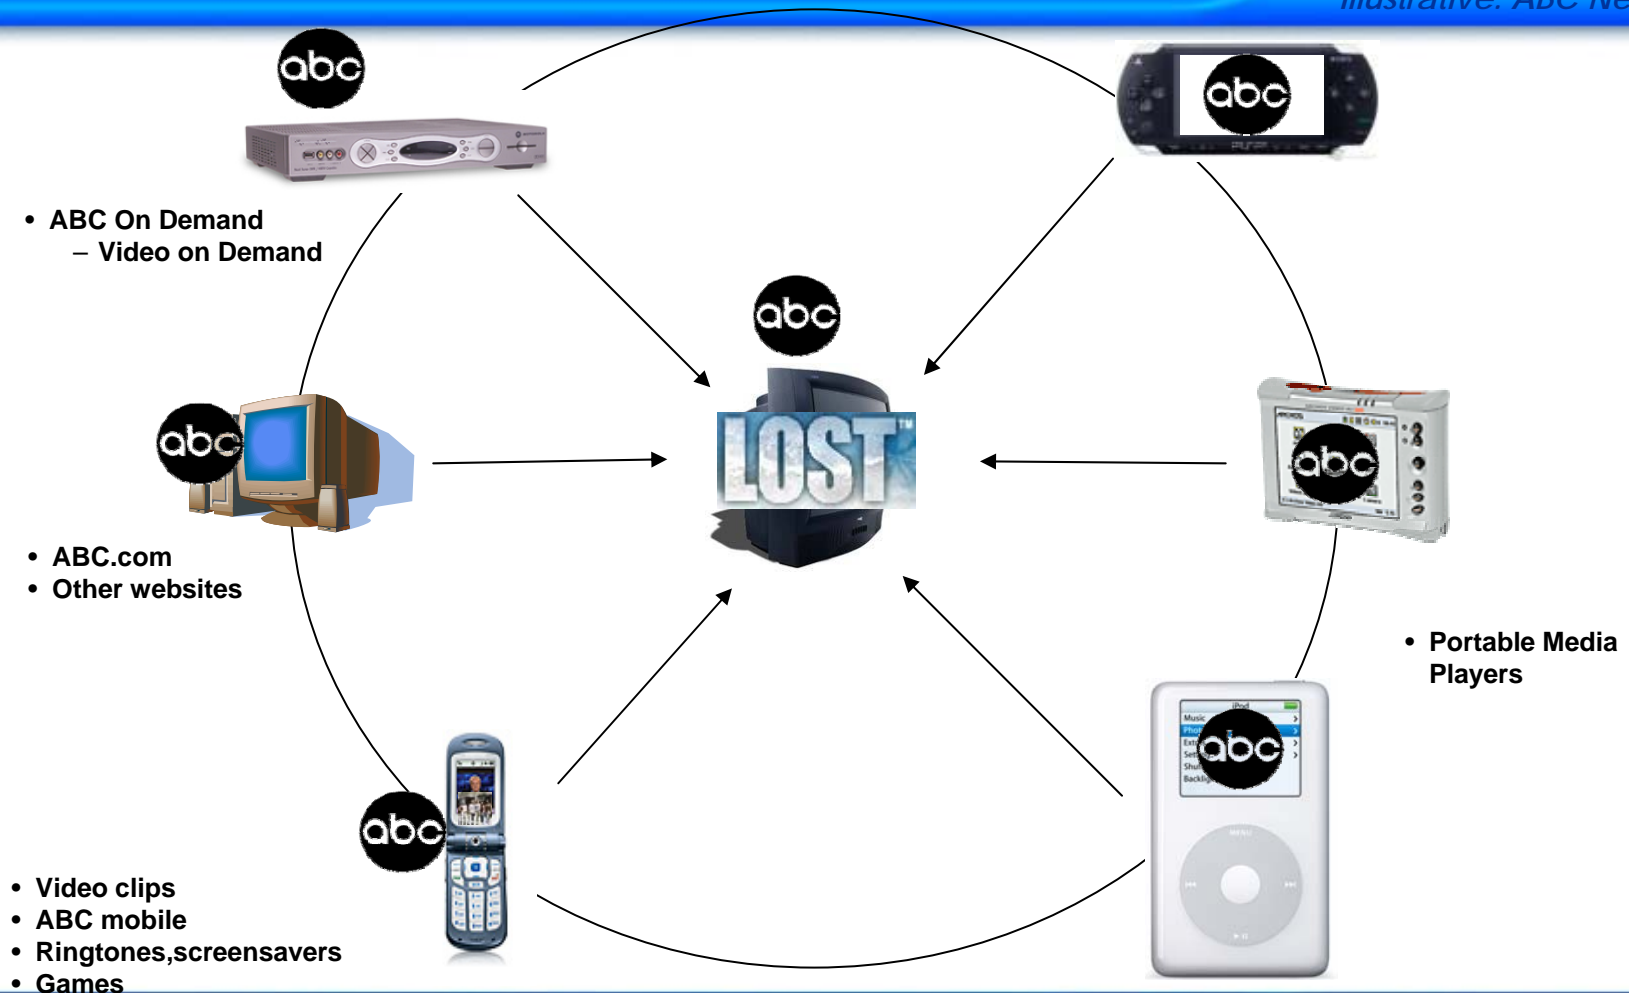

# Increase network's reach to audiences by extending network to all digital platforms
