Member Since:
Oct 2006

Very Happy!

Strengths: fast focusing, fast power-on, lets you keep the original photo when you use the manual functions

Weaknesses: the neck strap tends to get in my way when i want to take a portrait picture; also, my thumb sometimes hits the menu button when i'm trying to photograph

Summary: I spent a lot of time comparing cameras before buying a new camera, and this one definitely has made me glad I chose it. It's easy to figure out (I'm no genius with such things), and it fits fairly comfortably in my hand. I love the options, especially the shortcut button and the functions button- they make quick adjustments a breeze!

If there is a real flaw with this camera, it's the neck strap angle that gets in the way sometimes; but I have a wrist strap I use some, and it works great.
