

To whom it may concern;

RRR000022

1 [Northwest of Devil's Hole, at the rim of Crater Flat caldera, otherwise known as Yucca Mtn, terrorists are building a dirty bomb.

Just past the 'flooding' sign N.W. of Las Vegas on Hiway 95 right before the bare cinder cone that vented volcanic gas in the 40's the group, already notorious for the repeated use of nuclear weapons against civilians, is trying to plant the radioactive material that with the coming winter rains will likely spew dirty Krakatoa style eruptions in our face until less than 1% of it goes critical for the expected nuclear waste mega blast.]
