## HEARING COMMENT SHEET

Name: Tom GRECO

**COMMENTS:**

I have no problems or concerns with the entire project. I feel the NEPA process is being followed and this project acts every requirement.

I have concerns with the open house plus public presentation comment format. I feel that the open house, comment sheets, D/A, Court Reporter type of interface is the most effective, efficient type of public meeting. The public forum, open mic forum is counter-productive. Listening to reactionary, emotional, paranoid, uninformed speakers does not contribute to the NEPA process. It does seem to discourage people to speak up who may disagree with their position] - OVER -

Please MOVE on with these studies and

We need to take the emotion out of the  
process and stick to science & facts.]

Thank you for your consideration of my concerns
