EIS OFFICE, Office of Civilian Radioactive Waste Management
1551 Hillshire Drive,
Las Vegas, NV 89134

Dear Sirs and Mesdames:

I am firmly opposed to the storage and transportation of high-level nuclear waste in or through Nevada. Until some means of recycling spent nuclear fuel and other radioactive substances is found, it seems to me that storing it or disposing of it in oceans is tantamount to poisoning our descendants and all other creatures on earth as well.

Please reject the forthcoming application of the Department of Energy through the Nuclear Regulatory Commission in June 2008 (or whenever it is submitted) as this wasteful, unscientific project at Yucca Mountain bodes no good for anyone except the contractors who work there.

Very truly yours,

Joel Berg, Ph.D.
