 Comment Text :
 --> To Whom It May Concern:

1 [I wish to add my comments to the public comment period.

I do not believe that Yucca Mountain or any other proposed or actual storage facility can safely contain nuclear waste for the duration of its toxicity.

I do not believe that nuclear waste can be safely transported to Yucca Mountain or any location, especially in this era of vulnerability to terrorist activity within the United States.

Therefore, I do not believe that the Yucca Mountain project should be activated, nor should it proceed in its current or any other form.

Organizations which have built nuclear power plants with no realistic or viable long-term option for storage of its toxic waste have created a non-sustainable project. They cannot and should not expect Nevada to assume the unacceptable risks they have no solution for.]

Thank you for your consideration and inclusion of my comments and input into the public hearing process.

Jana R Bess
