 --> [ To the United States Government officials whom it may concern,

I most STRONGLY object to using Yucca Mountain, Nevada as a nuclear waste repository, dump or storage facility. The state of Nevada has proven over and over that geologically and hydrologically Yucca Mountain is unsuitable for nuclear waste storage.

Already nuclear waste from underground nuclear weapons testing is migrating underground towards Death Valley National Park. Has not the Federal Government contaminated southern Nevada ENOUGH???

And so now I say ENOUGH IS ENOUGH! No more nuclear waste in southern Nevada ever. ]
