Comment Text :

1 --> [ist still is not safe... 20 years ago when this started... nv was a desert... today almost 2 million people here and the fastest growing state... especially clark county... what happens if there is an "opp's". the trains are now scheduled to come thru las vegas.. do you care about us? the last time i spoke at a meeting i was told the if something happens our local leaders would go on radio and tv to tell us what to do... your people had no idea of who our leaders are or what we should do... only 2 ways out of las vegas... also we have multiple city mayors and county administrators... within a 30 mile area... n.las vegas, las vegas, henderson, clark county, mesquite, laughlin, etc.,etc, etc.. multiple fire departments and police departments besides nellis air force base and other federal land... who, what , when , where...

the only solution is to get a spot with a view and take out a beach chair to watch... you will not be here with us.. whoever you are... what happens in las vegas stays in las vegas except when there is an "oops".]
