1 [ i think every state that generates nuclear waste should keep in their state. we are not a dumping ground for everybody elses garbage that they don't want. there are decent people who live in this state that are law abiding, hard working people who don't deserve to have this crap dumped on them. of course no one else wants it, so we'll just dump it in nevada after all its just a bunch of low lifes and degenerants that live there, they won't care. what happens if some terrorist decides he wants this nuclear waste, how are you going to stop him from getting it, or if there is a train wreck, what happens then. wait till the tourist find out we have nuclear waste in nevada and see how fast the economy goes down hill and las vegas and reno becomes a ghost town, then what.! i say not in my back yard, let the states that generate it keep it!! ]
