Comments: Dear Sir or Madam:

[In light of the dangers of having a repository in Yucca Mountain, and as a Las Vegan of 37 years, I urge you to find a different solution to the radioactive waste problem. Risking the health and lives of people is not acceptable. Surely you know that Yucca Mountain has potential for earthquake activity. Can you prepare for that with 100% assurance of safety? If not, then again, I urge you to find a different solution. Thank you for your time and attention.]

Sincerely,  
Brando C. Burton
