Comments: YUCCA MOUNTAIN

Dear Sir, I'd like to address Yucca Mountain. I live in southern Nevada. I know, as well as all citizens in this area do, that the DOE and all politicians back east don't give a damn about the taxpayers in this area. That's proven with the ongoing onslaught of your dept. to ship nuclear waste to Nevada. We realize that politicians think of Nevada as one big wasteland. Since few people live here, it's a perfect dumping ground. But it would be a different story if it was taking place in your back yard. Along with the inevitable problems that will happen, the vandalism, (or worse), that'll happen at the dump, and the accidents or attacks that are made on the trucks and other vehicles that travel right through town, there will be the situation that nobody talks about. The sure to be leakage in the containers of the nuclear waste that will seep into the ground water and eventually affect thousands of people. And the coverup that will ensue. We ask you, before it's too late, to think about the people of this country and not of somebody's political agenda, and stop this atrocity before it happens.)
