Comment Text :
1 --> [i have toured the yucca project and it is the best place to put the waste
from the power plants. it is the safest place with the military base
surrounding it and the way it is designed to be safe. the caskets will take
water dripping on the for 200 years if it ever rains inside the cavern.
nevada could have had a fortune if they had not wasted it in court. shape up
and do it!!!!!!]
