

U.S. Department of Energy Draft Repository SEIS,
Draft Nevada Rail Corridor SEIS and Draft Rail
Alignment EIS

HEARING COMMENT SHEET

RRR000256

Name: Andreas Andersson

COMMENTS:

1 ["Nothingness has No end, just as an Existence once created will continue to exist," and ~~no~~ ^{no} ~~liberal~~. Please note that I am liberal. If this age is truly civilized why is there such a need for a substance that emits so much energy it could literally melt a persons face off, permanently destroy environments and damage the air that the world as a whole breath. The nukos, war, guns if a presidents agenda is truly built around siphoning money into his own private account at the loss of many lives then this agenda is a success. If america truly does want for peace then america will get peace at the cost of discarding the substance that will ~~only~~ ^{only} destroy the planet yet that includes america from within. ps. Freedom is not free but death does not cost a thing except life.]
