1 [----> We live in a big desert. There is plenty of space to dump nuclear waste without putting it so close to the most fabulous city in the world (Las Vegas). It may cost a little more to dig a space from scratch further away, but think what the cost would be if an accident were to happen with it so close to Las Vegas. There are questions unanswered yet about the safety of the Yucca Mt. tunnel for that type of storage. Please find another place for it.] Helen M. Garriott
