

RRR000343

December 13, 2007

Dear Sirs,

I [As a Nevada resident I am apposed to the Yucca Mountain project. I believe it is potentially dangerous. We do not want it trucked through our city. We are not using it, therefore it doesn't seem right that it is being stored in our state. I believe it should be stored in the states that use it.]

Thank You,

Gretchen Earl
