

U.S. Department of Energy Draft Repository SEIS, Draft Nevada Rail Corridor SEIS and Draft Rail Alignment EIS

HEARING COMMENT SHEET

RRR000349

Name: REV. GAIL COLLINS-RANADIVE

COMMENTS:

1 [ When I toured the Yucca Mountain Repository site 6 years ago I learned it was located on a fault & line - thus I must urge the no action Alternative on behalf of long term effects of radioactive waste on the unstable earth.

Having returned to Las Vegas after 5 years elsewhere, I am amazed at the population growth and must therefore urge no action on <sup>or</sup> construction of the rail system for transporting nuclear waste through the populated areas - or across any of this America the beautiful; it is too dangerous - accidents & terrorism. ]

Please feel free to attach additional pages (if mailing, more postage may be needed.)
