Subject: Yucca Mountain

LSN: Relevant - Not Privileged

User Filed as: Excl/AdminMgmt-14-4/QA:N/A

I [] would like to register my strong opposition as a scientist and a woman, to your plan to store nuclear waste in Yucca Mountain. I care about children into many future generations, and I see that mountain as extremely unstable, fraught with fault lines and Holy to the Native Americans. There is already a nuclear wasteland at the Nevada Test Site. The government appropriated this land wrongly and has desecrated it and made it off limits until the end of the world. Do not do this to a second Native site!

Nuclear war and Nuclear energy were bad ideas from the beginning. Do not compound your mistakes!]

Sincerely,

Dr. Rosalie Bertell

Regent, International Physicians for Humanitarian Medicine
