Subject: Do not build the high radiation nuclear waste dump at Yucca Mt.

LSN: Relevant - Not Privileged

User Filed as: Excl/AdminMgmt-14-4/QA:N/A

1 [This is suicide; the whole GNEP is suicide for the wealth of the very few, and I can't even imagine how or where they expect their own children to live..

Build this high radiation nuclear waste dump at Yucca Mountain and you will make it even harder for us to turn back the vicious, scheming attempt to overturn our ban on new nuclear power plant construction in California.

And, Yucca Mountain is a sacred site to America's indigenous peoples. Have they not suffered enough?] ---Ann Garrison
