I [I joyce gibson, a tax paying citizen, am writing to voice my opposition to nuclear waste placed on yucca lands. these lands are sacred to the native people, long before america became america. the native people have been dumped on since 1607 and before. let there remain the sacred holy places of the native people who have been here for 40,000 years. do not destroy the land with toxic nuclear material that will kill the land, the animals, the air, the water, the people for the next thousand years.]
