Subject: Yucca Mountain Storage

LSN: Relevant - Not Privileged
User Filed as: Excl/AdminMgmt-14-4/QA:N/A

I [I oppose the use of Yucca Mountain area as a site for storage of nuclear waste. Not only geography and rock formation unstable but the transportation of nuclear waste across this nation is a potential nightmare. We cannot plan and protect against all contingencies and "accidents" are potentially nation-altering.

We need to stop the use of nuclear facilities for energy resources and develop wind, solar and geothermal technology to meet our energy needs.]

Thank you
Sharon Johnson
