Subject: Please stop Yucca Mt.

LSN: Relevant - Not Privileged
User Filed as: Excl/AdminMgmt-14-4/QA:N/A

To Whom it May Concern:

As a citizen of the High Desert in California, I am opposed to the Yucca Mountain project for many reasons.

First, it is located on land that was designated as Shoshone land, and the sacred area that includes Yucca Mountain should not be tampered with.

Second, delivery routes may go through San Bernardino County, and if an accident should occur, my family and friends would be affected.

Third, due to the seismic activity in that area of Nevada, it is highly likely that radiation would be accidentally released affecting people, animals and the environment for thousands of years to come.

Fourth, there is no guarantee that the massive underground water supply as well as surface water in the Yucca Mountain area would not be contaminated. This pertains to a very large area in Nevada going into California as well.

No other locations in the United States have been proposed, although there are probably more stable places that might be considered.

Respectfully yours,

Ann Hale
