Dear DOE Official,  
As a nuclear engineer, a former nuclear submarine officer and a  
twenty-year veteran of the commercial nuclear power industry, [I am  
writing to express my deep and committed opposition to the opening of  
Yucca Mountain as a repository for the industry's high level  
radioactive waste. Your cooperation in preventing the creation of yet  
another environmental debacle resulting from this thoroughly  
mismanaged technology would be greatly appreciated.]

Sincerely,
