Subject: No Nuclear Waste at Yucca Mountain

LSN: Relevant - Not Privileged

To whom it may concern,

I [I am an Oregonian opposed to the plans to dump nuclear waste at Yucca Mountain in Nevada. This site is geologically unsuitable for the responsibility of holding nuclear waste. This site cannot be trusted to remain stable for tens of thousands of years. Furthermore, the beautiful state of Nevada should be not responsible for storing the waste created to power the eastern half of the country. Using nuclear power is inherently foolish specifically because the waste generated cannot be processed into any safe form. Nuclear power is mainly used in the eastern half of the U.S. and that is where the waste should be stored. Keep nuclear waste out of Yucca, out of Nevada, and out of the west, especially Oregon.]

Thank you,

Brent Bowman
