12 I'd rather you send it where people can do something  
CONSTRUCTIVE with it. I'm referring to nuclear  
reactor waste that's possibly headed to Yucca Mountain  
on Western Shoshone land in Nevada. If i wouldn't  
want to live next to it, why should anyone be forced  
to, including future generations who may lose their  
ability to produce offspring or to drink clean water?  
Until we have a way to neutralize these radioactive  
poisons, i vote to outlaw their production &  
transportation, for the love of Creator and all beings  
on Earth.)  
Sincerely,  
Donna Detweiler  
Albuquerque, NM
