Subject: Bad idea to dump nuke waste at Yucca Mountain

LSN: Relevant - Not Privileged
User Filed as: Excl/AdminMgmt-14-4/QA:N/A

To whom it may concern:

I [Storing high level and other radioactive waste in an area high in geological faults is just a really REALLY bad idea. Unfortunately, the expanses of land in the west make for prime dumping ground potential.

But there are better and cleaner, greener ways of powering our lives.

I oppose the dumping of nuclear wastes at Yucca Mountain.]

Seriously yours,

Chris Daum
