15 It's unbelievable that the country that preaches to the world of being the best in the world, has the nerve to poison the land were the less capable of defending themselves inhabit.

Too bad for us the U.S. citizenry, we don't have to stand against the greedy corporate politicians running this country to the ground. But no matter, the movers and shakers are making a killing. Someone has to get rich at expense of the poor. Unfortunately, it the poor in the U.S. and around the world that are being exploited by ruthless, corrupt politicians and the corporate thugs filling their pockets with money.

By keeping the poor majority subdued, the world is being turned into the greedy minority's hunting ground.

The sold out corporate media running the most effective propaganda since Hitler's hoodlums invented it, are making sure that truth gets twisted and the lies are more believable.

A country that a few decades stood for justice, and peace, has come 180 degrees around and perpetrating the injustices and abuses that it used to fight, and stand against.

The U.S. blaming the Hispanics immigrants is the typical act committed against the defenseless in order to keep the majority from noticing the fascist, and Nazi laws passed by the politicians in charge. }
