1 [Once again I must protest the use of Yucca Mt. for waste management from nuclear waste products. The site is unsafe and would become more unsafe under the proposed changes made by the administration. Every effort is being made to lull the American public into thinking that new nuclear power initiatives would be advantageous for the U.S, when exactly the opposite is true. Stop these initiatives NOW.] Sincerely
Mary M. Freedlund, 1304 Sunset Ave., Arcata, Ca. 05521
