From: Vivian Lupo
PO Box 144
Albion, CA 95410

To: Department of Energy

To Whom It May Concern:

I am OPPOSED to the Yucca Mountain Nuclear Waste Repository Proposal for the following reasons:

- 1 [1. The United States Government made a forced Treaty with the Shoshone Nation giving them sovereignty over the proposed site. The US Government should honor that treaty.]
- 2 [2. The proposed site has at least 13 known fault lines running through it making it a very dangerous plan.
3. The proposal has not taken into account the contamination of the water aquifers, underground river and run off water.
4. The transportation of nuclear material to the site is a dangerous and very potentially disasterous to ALL LIFE.

The very creation of this material must be STOPPED IMMEDIATELY if we want to have a healthy planet and healthy people. I urge you to seek other alternatives to this proposal and DENY THIS YUCCA MOUNTAIN PROJECT.]

IN All Sincerity,

Vivian Lupo
Mother and Concerned Citizen
