Subject: No More Waste at Yucca- No more nukes needed- go solar energy sources

LSN: Relevant - Not Privileged

User Filed as: Excl/AdminMgmt-14-4/QA:N/A

January 10, 2008 TO EIS Office U.S. Department of Energy Office of Civilian Radioactive Waste Mgmt,
1551 Hillshire dr. Las Vegas, NV, 89195-7308 or by e-mail at EIS_Office@ymp.gov. \

Dear Sirs: [We understand you are closing comments after today, so just to get this in time. We do not want to see Yucca Mountain reopened as a nuclear waste repository. There is no need. What must be done is to institute other forms of energy such as nanosolar which can solve our energy problems in half the time without creating nuclear targets for terrorists, leaching into groundwater and causing hazardous waste that will be toxic for thousands of years...it is crazy and unnecessary to add to our nuclear waste just to make steam, especially when alternative energy sources abound.]

Sincerely,

Deb and Arne Arnason
12 Dill St, Alva, FL 33920

We have 360 signatures from friends and family across the country to that effect, "No coal, no nukes, go solar"

Start the year off right. Easy ways to stay in shape in the new year
