To: Department of Energy  
US Government

To Whom it may concern:

1 [ I am writing in regard to the proposed Yucca Mountain Nuclear Waste Disposal Plan. I am asking that you please DO NOT GO THROUGH with this plan. For ONE the US Government has Treaties with the Shoshone Indian Nation and you should honor those treaties and leave the Indian People in Peace. For TWO there are numerous fault lines running through the proposed area making it a dangerous site. For THREE the transportation of hazardous material is dangerous and has high potential for being disasterous. For FOUR there are water aqafers, underground rivers and gullywashing rain producing large areas of runoff making it a dangerous proposal.

I am urging you as a Grandmother and concerned citizen of this country to REJECT this Yucca Mountain Nuclear Waste Diposal Site.

I also urge you to stop the use of this harmful and shameful technology that produces such toxic and lasting devestation to our Earth and It's People.]

With the Utmost Sincerity,

Diana Duffy
