10 It is my understanding that comments about Yucca mountain as a nuclear waste disposal site are still being accepted. I would like to add my voice to those opposing the licensing of the site. In addition to the site being unacceptable for such storage, transporting such waste to the site invites the possibility of a major catastrophe, including possible terrorist attack. Such wastes should remain on site in hardened storage containers until a better disposal method is found. 1

Respectfully,
Lee A. Blackburn
