Subject: yucca mtn nuclear waste disposal

LSN: Relevant - Not Privileged
User Filed as: Excl/AdminMgmt-14-4/QA:N/A

| [Yucca Mountain is sacred to the Shoshone as an herb gathering site, for rituals, and as a part of their stories. Yucca Mountain is known in Shoshone language as Snake Mountain. Indeed it looks like a snake. It is said that the snake was headed north when it froze where it is. Further more it is said that it will move again and "flip around". Geologists say that there are thirteen different fault lines running through it. I strongly oppose dumping nuclear waste here or anywhere else.]

Start the year off right. Easy ways to stay in shape in the new year.
