Subject: Nuclear Waste Storage

LSN: Relevant - Not Privileged  
User Filed as: Excl/AdminMgmt-14-4/QA:N/A

Gentlemen and Ladies,

[ We oppose the siting of a nuclear waste dump at Yucca Mountain. The Western Shoshone National and the State of Nevada also oppose this dump. The unstable geology of that area poses great dangers in using this site.

The transportation of nuclear waste over long distances threatens the health and well-being of our nation and its citizens. The possibility of accidents or theft by terrorists should halt the further consideration of these plans. Don't ship highly dangerous waste through our cities, near our fields, our hospitals, our schools and our rivers. ]

Sincerely,  
Steven Adams, Marcia Halligan
