--> Dear DOE

I [ I live in Vermont where we generate waste through the Vermont Yankee Nuclear Power plant. Your plans for Yucca Mountain have always been a scam and still are. The people from Nevada don't want our waste. They don't want it being transported through their tribal lands. The casks that are going to be used are only going to last a hundred years so that your great grandchildren can take them out and deal with them. Vt Yankee certainly doesn't have a good track record for transporting radioactive material. There is no solution for nuclear waste other than to stop making it. Yucca Mountain is not going to happen. Texas is not going to happen. We the People are not going to stand for reprocessing nuclear waste into nuclear weapons. I have seen pictures of the 2005 floods in the Yucca Mountain region. Shipping nuclear waste is a nightmare that you are creating. ]

Wake Up!

Sincerely,

Julia Bonafine
