Comment Text :

15 --> I have been in Las Vegas for eight years. I now have a three year old son and I think we need to think of the future for our children. In the long run this could destroy this city. Nobody could say for certain the long term effects on the environment. If transporting nuclear waste to Yucca Mountain does pass I will be taking my family to where I feel is a safer place to live. Ninety miles is very close for nuclear waste. I really hope people are really thinking of the effects this could cause instead of the money they could be receiving. Please think of the future of our children and of their children.]

Sincerely ,  
A concerned

citizen
