--> LADIES AND GENTLEMEN:

Here are some facts that must be brought to light concerning potential Caliente Rail and Mina Rail track shipments through the state of Utah over the next 35-50 years:

With Caliente Rail track: 8740 casks would be shipped by rail and 1793 casks would be shipped by truck. This equates to one shipment every 1-2 days through Salt Lake City over the next 35-50 years.

With the Mina Rail tract: 7532 casks would be shipped by rail and 1793 casks would be shipped by truck. This ALSO equates to one shipment every 1-2 days through Salt Lake City over the next 35-50 years.

Source: U. S. Department of Energy, 2008

1 [The proposed shipments using either Caliente or Mina Rail tract are outrageous and a very real threat to the health and safety of those who reside in our beautiful state over the next half century.]

Sincerely,

KARL AND JOAN GILLETTE
