Comment Text :
1 { --> I feel that transporting this waste into out state is comprimising our
quality of life. accidents do happen and why should you put the entire
country at peril by bringing waste across the United States into out small
state. If the states that have nuclear poewer don't want to deal with the
waste , why should we be penalized by HAVUNG to accept it?

Common sense should tell you it is not safe . there has to be a better
way....

we Nevadians love our state and do not want to have this dangerous stuff in
our back yard. AMEN]
