I also understand that we here in Nevada are being unfairly picked out to house every other states waste. That is not fair. I know all the states that use and produce this waste is hoping that their waste will toem out here so they do not have to deal with it anymore. Well, I live in Caliente, NV. We do not produce Nuclear power in our state and we do not produce nuclear waste I strongly feel that if you produce nuclear power and you benefit from it, then you need to keep your waste and deal with it. I'm sure you wouldn't want me to throw my garbage in your back yard, so don't expect me to want your garbage in mine. Also, I understand that one of the proposed rail routes for transporting the nuclear waste is to bring it right through our town. NO TRAN YOU! Your transporting nuclear waste through our small community will bring our property values way down. I don't want to deal with any possible leaks obreaches or anything of that sort. I don't know how else to make this any clearer than I already have. WE DO NOT WANT OTHER STATES WASTE IN OUR STATE! Just because we live in a desert state doesn't mean our state is worth livin in. We think our state is a beautiful place to live. Keep the nuclear waste where it is. It has been film of the content of the proposed rail routes waste where it is. It has been film of the content of the proposed rail routes or reaches or intention of the proposed rail routes for transporting the nuclear waste doesn't mean our state is worth living in the proposed rail routes or proposed rail routes	cc:

Regards,	Commer> I waste. to how that was the do not I strowed transf YOU! Your probreach cleare Just where where	understand that there needs to be a safe plant. I also understand that we here in Nevada and ise every other states waste. That is not fail is and produce this waste is hoping that the ey do not have to deal with it anymore. Well it produce Nuclear power in our state and we congly feel that if you produce nuclear power you need to keep your waste and deal with it throw my garbage in your back yard, so don't ge in mine. Also, I understand that one of the produce of the corting the nuclear waste is to bring it right your transporting nuclear waste through our property values way down. I don't want to deal mes or anything of that sort. I don't know he had a laready have. WE DO NOT WANT OTHER because we live in a desert state doesn't mest think our state is a beautiful place to lit it is. It has been fine so far and it can call it is at. Don't bring it here!	ace to dispose of nuclear re being unfairly picked out ir. I know all the states eir waste will come out here, I live in Caliente, NV. We do not produce nuclear waste and you benefit from it, I'm sure you wouldn't want expect me to want your he proposed rail routes for ht through our town. NO THAN small community will bring I with any possible leaks or ow else to make this any STATES WASTE IN OUR STATE! an our state is worth living ve. Keep the nuclear waste
