1' [--> Every state that choosed to create nuclear/toxic waste should be responsible for disposing and storing their respective toxic waste WITHIN their own state lines based on federal laws and regulations.

This method gives the respective states the incentive to responsibly create and to manage all aspects of their own creation of nuclear waste WITHOUT the option of "dumping" their waste into another state.

THIS IS ACCOUNTABILITY AS OPPOSED TO POLITICS AND WEALTHY STATES "SELLING" THEIR TOXIC WASTE TO OTHER STATES NEEDING THE MONEY.

NEVADA SHOULD NOT BECOME THE DUMPING GROUND FOR ANY OTHER STATE]
