

1 { * This email is to serve as my voice in an attempt to convince upper powers that WE IN NEVADA DO NOT WANT THE WASTE OF THE WORLD IN OUR BACKYARD. It's ludicrous ... let everyone keep- thier own crap. We don't want our water tables poisoned, nor do we want to subject our communities to the impending dangers from transporting poisons accross our country and especially into our homes here in Southern Nevada. }

PLEASE NO NO NO WE DON'T WANT IT!!
