

Committee on Education and Labor
U.S. House of Representatives
Roland H. Good III Testimony
Friday, April 20, 2007

Mr. Chairman and distinguished members, it is a pleasure and honor to testify before you. For the past 19 years my colleague Ruth Kaminski, myself, and a team of researchers and graduate students have pursued a program of research expanding the measurement technology that is the foundation for DIBELS 6th Edition. Our work builds on the previous research begun initially by Professor Stan Deno and the team of researchers at the Institutes for Research on Learning Disabilities at the University of Minnesota and carried on today by many researchers in Curriculum-Based Measurement of Reading, or CBM. CBM is a measurement technology for developing brief, one-minute, repeatable, fluency-based measures of reading proficiency. The measurement technology has remarkable reliability and validity supported by over 30 years of research. Today that measurement technology is used in many reading assessments including DIBELS 6th Edition.

Our research team has extended that measurement technology and research base in two primary areas: (a) a downward extension of the measures to the early literacy skills of phonemic awareness and phonics in kindergarten and early first grade, and (b) the extension of a decision-making model to general education settings with an emphasis on early intervention and problem prevention.

Our research focus on early literacy assessment was motivated by a crisis in our reading instruction and reading outcomes for our children, especially our children from poor and diverse backgrounds. We began with an exhaustive review of the existing research literature at that time and identified core components of early literacy that should form the content of instruction and the target of assessment. Those 5 core components were eventually identified by the National Reading Panel as phonemic awareness, fluency, vocabulary development, and reading comprehension. It is not a coincidence that we targeted very early essentially the same skills identified by the National Reading Panel: We were reading the same research.

Our most important work so far has been the articulation of a prevention-oriented decision model supporting educators to use assessment to inform instruction to change reading outcomes. In the Outcomes Driven model, we recommend that educators use assessment to (a) identify need for support, (b) validate need for support, (c) plan and implement support, (d) evaluate and modify support, and (e) review support. Essentially those decisions require that assessment be used for the purposes of screening, diagnostic assessment, progress monitoring, and evaluation of outcomes.

Those 5 core components and 4 purposes of assessment form the backbone of Reading First assessment requirements. I believe Reading First represents the state of the science about early literacy assessment and instruction. We did not develop early literacy assessment for Reading First, we have spent almost 20 years developing early literacy assessments for the state of the science about reading instruction. We arrived at essentially the same place as Reading First through a convergence of paths.

Some see DIBELS 6th Edition as an extremely valuable measure that has been instrumental in helping schools with very high educational needs make dramatic changes

in reading outcomes for their children. However, DIBELS 6th Edition is just a set of simple, easy measures that utilize public, readily available measurement technology. Others can and have developed competing measures using that measurement technology. The principle value of DIBELS 6th Edition is not in the measures themselves, it is in the extensive program of longitudinal research that documents the reliability, validity, and decision utility of the measures. From that research we know what level of early skill places a student at risk of not achieving later reading outcomes. We know what levels of early literacy skills students need to achieve by when in order to make adequate progress toward reading proficiency. Most important, we can evaluate a student's progress toward goals on a direct and frequent basis and know, within weeks, whether our instruction is adequate or must be modified or enhanced on a student-by-student basis.

Throughout our work with DIBELS 6th Edition and prior editions, we have tried to maximize the impact of our work for children. We strive to make this powerful measurement technology readily, easily, inexpensively available for educators. A version of DIBELS 6th Edition is easily available on the internet for free download and unlimited photocopying for educational purposes. We are unconditionally committed to continuing to have DIBELS future editions available for free download and unlimited photocopying as long as there are users who need it. We also have the same materials available in published form from Sopris West, and Wireless Generation offers the same assessment on a handheld Palm device. Ruth Kaminski and I developed a similar set of measures called Voyager Indicators of Progress (VIP) embedded within the Voyager Universal Literacy curriculum. Schools may choose to download for free, or purchase version, or use the handheld Palm. Or schools may choose to use the curriculum embedded version.

Roland H. Good III Brief Bio

Dr. Roland Good is an associate professor at the University of Oregon. Before coming to Oregon in 1988, he taught at the University of Pittsburgh. His areas of expertise include early literacy research, measurement, statistics, and research design courses. Dr. Good received his undergraduate degree in elementary and special education, and has two years experience as a teacher in elementary general education and special education classrooms. He earned his doctorate from The Pennsylvania State University in School Psychology and has two years experience as a school psychologist.

Dr. Good has served on the editorial review boards of four professional journals including *School Psychology Review*, the official journal of the National Association of School Psychologists and *The Journal of Special Education*. He has also been an Associate Editor for *School Psychology Quarterly*, the official journal of Division 16 of the American Psychological Association.

For the past 19 years Dr. Good has lead the program of research and development culminating in the Dynamic Indicators of Basic Early Literacy Skills (DIBELS) and the DIBELS Data System. Many of his presentations and papers have addressed Dynamic Indicators of Basic Early Literacy Skills and Curriculum-Based Measurement procedures for children with mild disabilities.

Dr. Good recently served as a national assessment expert on the Secretary's Reading Leadership Academy, Assessment Committee. As a member of the Assessment Committee Dr. Good assisted in professional development academies for state leaders preparing Reading First proposals and assisted in the review of the scientific evidence for assessment measures with respect to the requirements of Reading First.

Dr. Good has contributed as principle investigator, co-principle investigator, or research faculty on 12 federally-funded research and training grants. He was co-principal investigator on the Early childhood research institute on program performance measures: A growth and development approach. He has 27 publications in referred journals, 10 book chapters, and has made over 90 presentations at national conferences.

Committee on Education and Labor
 Witness Disclosure Requirement – “Truth in Testimony”
 Required by House Rule XI, Clause 2(g)

Your Name: Roland H. Good III		
1. Will you be representing a federal, State, or local government entity? (If the answer is yes please contact the Committee).	Yes	No X
2. Please list any federal grants or contracts (including subgrants or subcontracts) which you have received since October 1, 2004: National Conference Logistics Center:New Orleans, LA 7/26/05 National Conference Logistics Center:Reno NV 7/18/06 Western Region Reading First TAC:Pierre, SD 9/12/05		
3. Will you be representing an entity other than a government entity?	Yes X	No
4. Other than yourself, please list what entity or entities you will be representing: Dynamic Measurement Group, Inc.		
5. Please list any offices or elected positions held and/or briefly describe your representational capacity with each of the entities you listed in response to question 4: Vice President, past President		
6. Please list any federal grants or contracts (including subgrants or subcontracts received by the entities you listed in response to question 4 since October 1, 2004, including the source and amount of each grant or contract: None		
7. Are there parent organizations, subsidiaries, or partnerships to the entities you disclosed in response to question number 4 that you will not be representing? If so, please list:	Yes	No X

Signature: _____ Date: 4/18/07

Please attaché this sheet to your written testimony

Committee on Education and Labor
Supplemental Financial Information Request

Your Name: Roland H. Good III

1. Provide your financial information for the years 2000 through 2006. Specifically, the source of any income, a detailed description of the nature of any income, and the amount of any income you received during this period. The term “income” as used in this request includes but is not limited to the following: salary, wages, royalties, dividends, stock, stock options, interest, consulting fees, commissions, fringe benefits, reimbursements for travel expenses, paid trips, discharge of indebtedness, gifts of any kind, gains derived from dealings in property, and income from an interest in an estate or trust (use attachments as necessary).

(see attached Roland Good Financial Information 2007-04-11)

2. In addition, provide the terms for any contracts that you entered into during this time period for which you received income, or for which you may receive income in the future. Relevant terms would include, but are not limited to, the contracting parties, the commitments and obligations of the parties, the effective dates, the basis and nature of any income, and the amount of income or the formula for calculating payments (use attachments as necessary).

(See attached table “Roland Good Revenue Contracts 2000-2006”)
