PROGRAM INSTRUCTION

TO: Indian Tribes or Indian Tribal Organizations Administering or Supervising the Administration of Title IV-B, subparts 1 and/or 2, of the Social Security Act

SUBJECT: June 30, 2004 Submission of: (1) the Child and Family Services Plan (CFSP) Final Report required for title IV-B of the Social Security Act (the Act); (2) the fiscal years (FYs) 2005 - 2009 Child and Family Services Plan for Child Welfare Services and Promoting Safe and Stable Families Programs, and (3) the CFS-101, Parts I and II, Annual Budget Request and Annual Summary of Child and Family Services.

LEGAL AND RELATED REFERENCES: Title IV-B, subparts 1 and 2; 45 CFR 1357; Indian Child Welfare Act.

PURPOSE: This Program Instruction (PI) provides guidance to Tribes on actions they are required to take in order to receive their allotments for fiscal year 2005 (subject to the availability of appropriations) authorized under title IV-B, subparts 1 and/or 2. The final allocations for these programs for FY 2004 are attached. (See Attachment A.) The amounts for the title IV-B and other discretionary programs in the FY 2004 appropriation bill were reduced by a statutory across-the-board reduction of .59%, resulting in slightly fewer dollars to distribute.

In order to receive funds for FY 2005, Tribes must develop and submit, by June 30, 2004:

- A final report for FYs 2000-2004 on services provided under the CFSP
- A five-year Child and Family Services Plan for FYs 2005-2009 integrating the Tribe's title IV-B, subparts 1 and/or 2,
- The CFS-101, Parts I and II.

BACKGROUND: Since the CFSP process began in 1994 there have been two complete five-year plan cycles (FYs 1995 through 1999 and FYs 2000-2004). The next CFSP is due June 30, 2004 for FYs 2005-2009.

A primary purpose of the plan is to integrate programs that serve children and families under title IV-B, subparts 1 and/or 2 of the Social Security Act (the Act), into a continuum of services for Tribal children and their families. Tribes should plan comprehensively for the full array of child welfare services, from prevention and protection through permanency.

Federal regulations at 45 CFR 1357 specify when they apply to Tribes. These regulations refer to numerous plan consolidation requirements and timelines that were useful at the introduction of the plan integration concept, but have since passed. The obsolete regulations and other variances in the current law and regulations are listed at Attachment B. The required elements of the comprehensive five-year Tribal CFSP, the annual report of progress and the final report on the progress made toward accomplishing the goals and objectives in the CFSP, however continue to be applicable.

Throughout these ten years, the Children's Bureau has utilized the Program Instruction (PI) method of informing and instructing Tribes regarding the CFSP and the programs involved. A review of these documents may be useful in preparing the next CFSP. Attachment C lists the earlier PIs and provides a brief description of what has been emphasized in each. These PIs can be found on the internet at www.acf.hhs.gov/programs/cb/laws/index.htm#policy

Child and Family Service Plan

After each five-year plan, Tribes must base the development of the next five-year plan on a final review of the accomplishments and identified needs from the previous five-year plan, including any new information. The goals and objectives of the plan should continue to address the following areas:

- the well-being of children and families;
- the needs of children and families; and
- the nature, scope, and adequacy of existing child and family and related social services.

The Children's Bureau recognizes that preparation of the CFSP is a long-term process. We presume that Tribes are well into the process of preparing the CFSP, which begins with updating the agency vision, assessing the state of child welfare services, and consulting/coordinating, and joint planning for the CFSP. The Children's Bureau provided the ACF Regional Offices with a document "Preparing for the FY 2005-2009 Child and Family Services Plan" to be shared with Tribes in anticipation of this PI. This information is located at Attachment D. Please refer to that piece for more specific assistance on the beginning phases of the CFSP process.

The Tribe has numerous opportunities to interact with the State for the benefit of Tribal children. As a requirement, States must specifically include Tribes in their collaboration/coordination activities in the State CFSP and are encouraged to include Tribes in the State Child and Family Services Review (CFSR) process. The State must

provide a description, developed in consultation with Indian Tribes in the State, of the specific measures the State uses to comply with the Indian Child Welfare Act. In addition, the State CFSP must describe the arrangements, jointly developed with the Indian Tribes within its borders, made for the provision of the child welfare services and protections in section 422(b)(10) to Indian children under both State and Tribal jurisdiction. Further, under the Chafee Foster Care Independence Act, States must certify that “each Indian tribe in the State has been consulted about the programs to be carried out under the plan; there have been efforts to coordinate the programs with such tribes; and benefits and services under the programs will be made available to Indian youth in the State on the same basis as to other youth in the State” [Section 477(b)(3)(G)]. State agencies and Tribes must also exchange copies of CFSPs and APSRs. Tribes are encouraged to take advantage of these consultation requirements to assure that Tribal children receive the benefits of State/Tribal cooperation.

INSTRUCTION: This section describes the requirements Tribes must meet to receive their allotments for title IV-B funds.

For FY 2005: The final report, the FY 2005-2009 CFSP, and the CFS-101, Parts I and II for FY 2005 must be submitted to ACF by June 30, 2004. The final report and the five-year CFSP must meet the requirements of 45 CFR 1357 and title IV-B, subparts 1 and 2 of the Act.

For FY 2004: If the Tribe has not requested the funds it has been allocated on the CFS-101, Part I for FY 2004 by June 30, 2004, its title IV-B funds for FY 2004 will be reallocated.

A. Final Report for Fiscal Years 2000-2004 for the CFSP

Each Tribe must conduct a review of the progress made toward accomplishing the goals and objectives in the CFSP. When conducting the final review, the Tribe must involve the agencies, organizations, and individuals that are a part of the on going CFSP-related consultation and coordination process. The final report may be submitted in the format of the Tribe’s choice.

The final report must include the progress made on the goals and objectives for FYs 2000-2004, as follows:

- a) A description of the specific accomplishments and progress made toward meeting each goal and objective in the Tribe’s CFSP, including information on outcomes for children and families, and a more comprehensive, coordinated, effective child and family services continuum. In describing the accomplishments and progress in the final report, Tribes should incorporate their baseline data and information and the CFSP annual reviews conducted as required by the Annual Program and Services Report (APSR). The final report should address barriers, unexpected events, etc. that may have had an impact on the accomplishment of the plan’s goals and objectives.
- b) Any other information the Tribe wishes to include.

The final report must also be made available to the public.

B. Five-Year Child and Family Services Plan

Development of the new CFSP continues the Tribes' opportunity to implement a system of coordinated, integrated, culturally relevant, family-focused services. Tribes should review the service principles at 45 CFR 1355.25. The process of coordination and collaboration implemented during the previous plan development, and continued annually for the Annual Progress and Services Report (APSR), should be continued in the development of the CFSP for FYs 2005 – 2009. The initial baseline information, as updated in each APSR, must serve as a basis for the development of the Tribe's CFSP vision, goals, objectives, funding, and service decisions. The development of the CFSP for FYs 2005-2009 must be based on information in the final report for FYs 2000-2004, and meet the requirements of the Child and Family Services Plan.

Tribes must provide the following information in the CFSP:

1. Tribal agency administering the programs: Tribes must identify the Tribal agency that will administer the title IV-B programs under the plan. The CFSP must include a description of the organization and function of the office responsible for the operation and administration of the CFSP, an organizational chart of that office, and a description of how that office relates to Tribal and other offices operating or administering services programs within the Tribe's service area.
2. Child and Family Services Continuum: Tribes must describe the child and family services continuum including child abuse and neglect prevention, intervention, and treatment services and foster care. Tribes must explain how its services will be linked to, coordinated with, or integrated into other services in the child and family services continuum.
3. Consultation process: The Tribe must describe the consultation process used to obtain the active involvement of those providing child and family services within the Tribes area of jurisdiction. The consultation must involve: all appropriate offices and agencies within the service delivery area, State or county child welfare directors or representatives, both public and private non-profit agencies, parents, representatives of agencies administering Federal and federally assisted programs such as Head Start, schools, maternal and child health programs, etc.
4. Service Description: Tribes must describe the services (including child abuse and neglect prevention, intervention, treatment services and foster care) and the family support/preservation services they provide. The description must include services currently available to families and children; the extent to which each service is available and being provided in different geographic areas and to different types of families; and important gaps in service, including mismatches between available services and family needs as identified through baseline data and the consultation process. Tribes must describe how services will be coordinated with services or benefits under Federal and federally assisted programs serving the same population.

5. Estimated expenditures for above services: Tribes must provide the estimated expenditures for the described services.
6. Assurances: Tribes are to submit the assurances located at Attachment E and submit them with the CFSP or include the assurances as part of the CFSP narrative.
7. Plan availability: The Tribe must make the CFSP available to interested parties. The plan must describe how the CFSP will be made available. Also, State agencies and Tribes must exchange copies of their CFSPs and their APSRs.

CURRENT EXECUTIVE INITIATIVES:

The Bush Administration has developed several major initiatives in areas that it feels will benefit children, adults, and society. The Department's Healthy Marriages, Responsible Fatherhood, Youth Development, Rural, and Faith-based and Community initiatives are consistent with the overall goals of the safety, permanency and well-being of children. In past PIs we have emphasized these initiatives, giving particular attention to the healthy marriage initiative. Attachment C refers to the prior PIs with information on the initiatives. We encourage Tribes to propose creative approaches to achieving the goals of these initiatives in the context of the child welfare system and to describe current and future activities associated with these initiatives.

SUBMITTALS:

In summary of the above instructions, Tribes must submit to their ACF Regional Office, by June 30, 2004:

- an original and one copy of the final report;
- an original and one copy of the CFSP;
- the CFS-101, Parts I and II for FY 2004, applicable if the Tribe has been allotted and requests, more than its current request for funds indicates
- the CFS-101, Parts I and II for FY 2005;
- Certifications and Assurances as applicable

Tribes may submit the documents as a paper copy, or at their option, on a 3.5 diskette, or as an attachment to an e-mail to the Regional Office. If a Tribe chooses to submit electronically, a paper copy of the original signed CFS-101 is still required. The Regional Office will forward a copy of the approved CFS-101 to the ACF Central Office.

Financial Status Reports (SF-269)

Tribes are required to submit the SF-269 fiscal report for expenditures under each subpart of title IV-B at the end of each 12 months (October 1-September 30) of the two-year expenditure period. The SF-269 fiscal report covering the first 12-month budget period is the interim report and the report covering the entire grant period is the final report. Both

reports are due 90 days after the end of the fiscal year (December 31). The required 25 percent Tribal match must be reported on the final fiscal report. Funds under title IV-B must be expended by September 30 of the fiscal year following the fiscal year in which the funds were awarded.

Since the discretionary funds under title IV-B, subpart 2 are to be expended for the same purposes as the mandatory funds, no separate reporting is required to distinguish between the expenditure of the two amounts. Grantees are to report the cumulative amount on the financial status report (SF-269). Funds reported as unobligated on the final financial status report will be recouped from the discretionary amount first.

Submit the original SF-269 to your ACF Regional Office and a copy to the following address:

Division of Mandatory Grants
Office of Administration
Administration for Children and Families
370 L'Enfant Promenade, S.W.
Washington, D.C. 20447

A negative grant award will recoup unobligated and/or unliquidated funds reported on the final financial status report (SF-269). Tribes must report their match on the final SF-269 also in order to avoid a negative award issuance toward the funds claimed.

We would like to stress the importance of filing the CFS-101 and the subsequent SF-269 with the Regional Office. These forms are essential to the financial management of the program. Funds cannot be disbursed without a correct CFS-101. Likewise, funding will be withheld or withdrawn if the SF-269 is not submitted or is submitted incorrectly. Please work with your Regional Office to assure that the Tribe is timely and accurate in its form submission.

PAPERWORK REDUCTION ACT:

Appendix “1” Title IV-B Requirements in Statute but not Regulations*

1. Title IVB, subpart 2 Program Name Changed to Promoting Safe and Stable Families.

This change occurred when the original Family Preservation and Family Support program was expanded by the Adoption and Safe Families Act (ASFA) of 1997. Funding was also increased at that time and also with the program reauthorization in 2001. [Section 430 (a) in Title IV-B of the Social Security Act (the Act)]

2. Addition of Title IVB, subpart 2 Service Categories of Time-Limited Reunification Services and Adoption Promotion and Support.

The 1997 reauthorization of the title IV-B, subpart 2 program affirmed the use of Federal funds for community-based family support services and family preservation services, and additionally required States to spend a portion of funds for time-limited family reunification services and adoption support services. The two latter categories allow States to fund services that facilitate the reunification of children in foster care with their families in a timely and safe manner, and encourage more adoptions out of the foster care system, expedite the adoption process, and support adoptive families as necessary to allow them to make a lifetime commitment to their children. [Sections 431 (a)(7) and (8)] In general, requirements in the regulations related to family preservation and support only should be taken to mean all four allowable service categories.

3. Expanded Title IVB, subpart 2 Definition of Non-Federal Funds for Non-Supplantation Provision.

ASFA added a definition of non-Federal funds for purposes of the title IVB, subpart 2 non-supplantation requirement at 432(a)(7)(A) of the Act. Non-federal funds are defined as State funds, or at State option, State and local funds. This means that a State may consider the amount of both local and State funds spent on Promoting Safe and Stable Families Program services in determining which funds may not be supplanted by Federal funds. This statutory definition of non-Federal funds supersedes the regulatory definition in 45 CFR 1357.32(f). [Section 431(a)(9)]

4. Title IVB, subpart 1 Assurance Regarding Use of Cross-Jurisdictional Resources.

ASFA added section 422 (b)(12) to the Act, which requires that State plans for child welfare services contain assurances that the State shall develop plans for the effective use and sharing of cross-jurisdictional resources to facilitate timely adoptive or permanent placements for children.

5. Description of State Activities for Children Adopted from Overseas in title IVB, subpart 1.

Public Law 106-279 added section 422(b)(13) to title IV-B, which states that the plan for Child Welfare Services must contain a description of activities that the State has undertaken for

* This appendix describes new requirements in title IV-B of the Social Security Act that are relevant to the Child and Family Services Plan and the Annual Progress and Services Report. This appendix may not include all amendments to title IV-B requirements.

children adopted from other countries, including the provision of adoption and post-adoption services.

6. Title IVB, subpart 1 Assurance Regarding Information on Children Adopted from Other Countries Who Enter State Care.

The Intercountry Adoption Act of 2000 (Public Law 106-279) added section 422 (b)(14) to title IV-B. This provision requires that the State plans for child welfare services provide that the State will collect and report information on children who are adopted from other countries and who enter State custody as a result of the disruption of an adoptive placement, or the dissolution of a finalized adoption. Such information must include the reasons for disruption or dissolution, the agencies who handled the placement or adoption, the plans for the child, and the number of children to whom this pertains.

7. Re-allotments of Title IV-B, subpart 2 Funds.

Public Law 107-133 amended Section 433 (d) of the Act to allow the Secretary to reallocate unneeded portions of title IVB, subpart 2 State allocations to other States, so that the total appropriation remains available for program purposes. The State must certify that grant funds are not needed before they can be reallocated.

8. Addition of Language to Title IVB, subpart 2 Definitions of the Service Categories re: Infant Safe-Haven Programs, Strengthening Parental Relationships, and Promotion of Healthy Marriages.

The Promoting Safe and Stable Families Amendments of 2001 (Public Law 107-133) amended the definition of Family Preservation Services to allow States to support infant safe haven programs to allow a parent to safely relinquish a newborn infant. [Section 431 (a)(1)(F)] The amendments also add to the definition of Family Support Services. Specifically, States may now support services to strengthen parental relationships and promote healthy marriages. [Section 431 (a)(2)] The definitions for family preservation and family support services in the regulations at 45 CFR 1357.10 should be read in conjunction with these statutory definitions.

9. Other Federal Program Name Changes.

Since the regulations were issued, a number of Federal programs referenced in the regulations have undergone significant changes, including name changes. States should note the following name changes in meeting the consultation requirements in 45 CFR 1357.15(l)(viii):

- “Part H programs” are now programs under Part C of the Individuals with Disabilities Education Assistance (IDEA) Act
- “Title IV-A” is also known as the Temporary Assistance for Needy Families program
- “child care and development block grant (CCDBG)” is also known as the Child Care Development Fund (CCDF)
- “Community-Based Family Resource Programs” are now known as either Title II programs under the Child Abuse Prevention and Treatment Act (CAPTA) or Community-Based Grants for the Prevention of Child Abuse.

Appendix “2”—Obsolete Title IV-B Provisions Still in Regulation*

1. References to Dates and Submission Timeframes that Have Passed.

The regulations at 45 CFR 1357.15 refer to numerous timelines that have passed. This is because the regulation was based on the initial Family Preservation and Family Support legislation. With the exception of the obsolete requirements listed below, the required elements of the APSRs and CFSPs apply on an annual or five-year cycle as applicable, regardless of the dates listed.

Specific obsolete references:

- At 45 CFR 1357.15 (a)(4), there is reference to the phase-in of the requirements for a consolidated CFSP by June 30, 1997. The phase-in period has expired and consolidation of the CFSP is now required.
- See also similar out-of-date references for phasing in consolidation of the CFSP in 45 CFR 1357.15 (b)(2) and (3), 1357.16 (a)(7), and 1357.16 (b)(4).

2. References to Title IV-B, subpart 1 Assurances in Section 422 (b)(9).

The regulation at 45 CFR 1357.15 (q) requires the CFSP to explain how services will help meet permanency provisions for children and families at 422 (b)(9) of the Act, but the actual section of the Act that addresses this issue is now located at 422 (b)(10).

3. CFSP Requirement that a Significant Portion of Funds are Used for Family Support and Family Preservation Services.

At 45 CFR 1357.15(s), the regulation requires that a significant portion of funds be used for family preservation and family support services. The requirement for significant portion previously required States to provide a strong rationale if they planned to expend less than 25% of their title IV-B, subpart 2 funds for either family preservation or family support. As a result of the expansion of title IV-B, subpart 2 to include two new services, that definition no longer applies. The significant portion requirement applies to all 4 services including time-limited family reunification services and adoption support services. Program Instructions on the APSR (beginning with ACYF-CB-PI-98-03) provide guidance to States on how to determine the significant portion requirement.

4. Authority for Requirements and Funding Formerly under Section 427 of the Act.

The Social Security Act Amendments of 1994 (Public Law 103-432) amended the Act as follows:

* This appendix describes obsolete requirements in the regulations at 45 CFR 1357 that are relevant to the Child and Family Services Plan and the Annual Progress and Services Report. This appendix may not include all obsolete requirements.

Public Law 103-432 repealed section 427 in title IV-B of the Act, effective for fiscal years beginning after April 1, 1996. Section 427 had been added to title IV-B by Public Law 96-272, the Adoption Assistance and Child Welfare Act of 1980, which offered incentive funds to States and Indian Tribes if they provided certain protections for children in foster care.

Public Law 103-432 added section 422(b) in title IV-B of the Act to include, as State Plan assurances, the foster care protections formerly required in section 427 of the Act. It also added two new assurances with respect to review of State policies on abandoned children.

Preparing for the FY 2005-2009 Tribal Child and Family Services Plan

The following is an advisement to Tribes of the need to engage in the preparation of their FY 2005-2009 Child and Family Services Plans (CFSPs). For Tribes, the CFSP consists of the Child Welfare Services program (title IV-B, Subpart 1) and, if eligible, the Promoting Safe and Stable Families program (title IV-B, Subpart 2). The new FY 2005-2009 CFSPs are due to the ACF Regional Office on June 30, 2004. This will be the third time 5-year plans have been submitted. Tribes should have already begun the process necessary to review and renew their CFSP. This initial guidance is being provided to begin the process now, and will be followed by more specific instructions to be included in a Program Instruction (PI) from the Children's Bureau.

With this in mind, the Children's Bureau would like to put forth some suggestions in regard to the visioning, assessment and consultation/ coordination, joint planning, training, and assurances areas of the CFSP in an effort to have Tribes pay special attention to them during the planning process.

Visioning: Visioning means the ability to "see" or envision exactly where we want to go and why we need to get there. Visioning enables an agency to review the potential effects of current and projected forces/issues, define and assess core competencies and values, develop desired future scenarios and begin to plot a strategy for achieving its vision for the future.

Visioning and goal setting are important aspects of the CFSP. We are reintroducing this concept in order to direct Tribes towards revisiting and, if appropriate, revising their past written vision statements. As it was in the other years of planning for the CFSP, it continues to be our strong expectation that Tribes will take advantage of this opportunity to review their visions in order to ensure that they remain valid, practical and timely and that they continue to move the Tribes' child welfare systems forward toward positive, integrated services for Tribal children and their families.

Assessment: An assessment is a product developed by gathering, analyzing, and synthesizing information to identify resources, strengths, motivation, functional components, and other factors at a point in time that can be used to enhance functioning and promote growth.

A basic assessment involves three steps:

- 1) Gather information on agency operations and performance that currently exists from both internal and external sources. These include data reports from other agencies (i.e., Head Start community assessments, childcare, juvenile justice, and social service agency statistics).

Agencies should expand available information with newer information, as needed (i.e., conduct surveys or focus groups, feedback from community meetings and forums, etc.).

2) Analyze and synthesize the information (i.e. utilize the broader planning groups in order to determine agency strengths and weaknesses based on the information gathered). There is a requirement at 45 CFR 1357.16(e) to analyze the Tribe's progress toward accomplishing the goals and objectives of the 5-year plan and to submit a final report along with the new CFSP. This process will also help the Tribes to examine their previous goals and utilize that knowledge when determining the goals of the next 5-year plan.

3) Draw conclusions, hypotheses, and assumptions about what steps the agency can take to impact these areas.

If the agency already knows what goals they want to focus on, the Tribal assessment can be focused on targeted areas. For example, Tribal child welfare agencies may see a need to work more closely with their Tribal courts, collaborate more with the State child welfare agency, reduce the number of children in out of home placement, etc.

Consultation/ Coordination: The consultation and coordination pieces of the CFSP are the combined internal and external processes used to obtain broad and active involvement of major actors in the Tribes' development of their child and family service delivery systems.

This upcoming CFSP year, we are asking Tribes to pay special attention to the consultative/ coordinative aspects of CFSP requirements. It is important to remember that joint planning and consultative coordination is a process, not an end result only to be dealt with when CFSPs are due. These processes should be used as an opportunity for shared insight about the collective direction in which Tribes should move.

Please bear in mind that the CFSP requires consultation and coordination. The CFSP must be jointly developed with the ACF Regional Office and the Tribal agency must consult with appropriate public and nonprofit private agencies and community-based organizations including representatives of other Federal or federally assisted child and family services or related programs.

Tribes should currently be incorporating other members of the broader social welfare community into coordination/collaboration processes not only for system assessment input, but also as a better way of doing business.

There are numerous opportunities for Tribes and States to collaborate in the planning for children and families. According to the regulations at 45 CFR 1357.15(q), States must jointly develop with the Tribe, the arrangements made for the provision of the child welfare services and protections in section 422 (b)(10) to Indian children under both State and Tribal jurisdiction. States are required to consult with Tribes regarding older youth according to the Foster Care Independence Act. It specifically includes a Tribal consultation requirement at section 477(B) (3) (G) of the Act by requiring States to certify ...“that each Indian tribe in the State has been consulted about the programs to be carried out under the plan that there have been efforts to coordinate the programs with

such tribes...”. The Tribes should also be involved in the States’ self assessment for the Child and Family Services Review (CFSR) and the planning for services improvement through the State’s Program Improvement Plan (PIP). The Tribes and States also must exchange copies of their CFSP’s.

Joint planning: Joint planning is an ongoing partnership in the process of planning that takes place between Tribal and Federal staff, and the assembled CFSP planning team. Joint planning includes discussions, consultation, and negotiation, between these parties in all areas of CFSP creation. (See 45 CFR 1357.10-Definitions)

It is important to work jointly with the Tribal liaison from your ACF Regional Office early on in the process and in an on-going manner in order to present the best results on the CFSPs. Emphasis should be placed on the ACF Tribal Liaison and the Tribe Agency Administrator working jointly on: 1) selecting participants for their Tribal plan development team and determining their orientation needs, 2) developing their work plan, including the review and analysis of the current CFSP, the timelines needed to meet the June 30 submittal deadline, etc. 3) documenting assurances and selecting preliminary unmet needs to be addressed in the plan, and 4) specifying the new 5-year goals and objectives.

Please bear in mind that the concept of joint planning is essential. We urge Tribes to think of this collaboration as a process to assist Tribes throughout the analysis of the old plan and the planning, development, and implementation steps of the new 5-year CFSP.

Assurances: Assurances are the written guarantees and certifications that all the elements included in the CFSP are the Tribe’s actual intended plan of action.

We would like to remind Tribes of the importance of the assurances sections of their plans. The upcoming PI will list details on assurances from 45 CFR 1357.15(c) and title IV-B sections 422(b)(10), 422(b)(12), and 432(a)(9).

Tribes have the opportunity to update their certification numbers to reflect the number of children under age 21 in their populations. Tribes must send a statement certifying the revised numbers of children who have not reached their twenty-first birthday and providing a justification for the revision to their Regional Office. This certification must be signed by the Tribal enrollment officer and the Tribal president/ chairperson and is due with the plan submittal by June 30th. Because grant amounts for both States and Tribes will be affected by the revisions, the Regional Office may ask for additional verification/ documentation if the numbers vary significantly from the Census or previous data.

This message is intended to encourage Tribes to focus their current efforts on the planning process for the CFSP. The upcoming PI will provide more detailed guidance to Tribes on all aspects of the CFSP requirements.

Title IV-B Child And Family Services Plan: Assurances

The assurances listed below are in 45 CFR 1357.15(c) and title IV-B sections 422(b)(10), 422(b)(12), section 422 (b) (14) and 432(a)(9). These assurances will remain in effect during the period of the current five-year CFSP.

1. The Tribe assures that it will participate in any evaluations the Secretary of HHS may require.

2. The Tribe assures that it will administer the CFSP in accordance with methods determined by the Secretary to be proper and efficient.

The Tribe assures that it has a plan for the training and use of paid paraprofessional staff, with particular emphasis on the full-time or part-time employment of low-income persons, as community service aides; and a plan for the use of non-paid or partially paid volunteers in providing services and in assisting any advisory committees established by the Tribe.

4. The Tribe assures that standards and requirements imposed with respect to child care under title XX shall apply with respect to day care services, if provided under the CFSP, except insofar as eligibility for such services is involved.

5. The Tribe assures that it is operating, to the satisfaction of the Secretary:
 - - an information system from which can be readily determined the status, demographic characteristics, location, and goals for the placement of every child who is (or, within the immediately preceding 12 months, has been) in foster care;
 - -a case review system (as defined in section 475(5) for each child receiving foster care under the supervision of the Tribe;
 - -a service program designed to help children—where safe and appropriate, return to families from which they have been removed; or be placed for adoption, with a legal guardian, or, if adoption or legal guardianship is determined not to be appropriate for a child, in some other planned, permanent living arrangement; and

Attachment E

- o a preplacement preventive services program designed to help children at risk of foster care placement remain safely with their families; and (C)(i)
6. The Tribe assures that plans will be developed for the effective use of cross-jurisdictional resources to facilitate timely adoptive or permanent placements for waiting children.
 7. The Tribe assures that it has reviewed its policies and administrative and judicial procedures in effect for children abandoned at or shortly after birth (including policies and procedures providing for legal representation of such children); and is implementing such policies and procedures as the Tribe determines, on the basis of the review described, to be necessary to enable permanent decisions to be made expeditiously with respect to the placement of such children.
 8. The Tribe assures that, in administering and conducting service programs under this plan, the safety of the children to be served shall be of paramount concern.

f) Specify the estimated amount of title IV-B, subpart 2 funds to be spent on Administration (not to exceed 10% of the estimated allotment).

7. Re-allotment of Title IV-B, Subpart 2 funds for State and Indian Tribal Organizations

The Administration for Children and Families (ACF) is able to re-allot unneeded portions of State and Tribal allocations of title IV-B, subpart 2 funds to other States and eligible Indian Tribes so that the total appropriation remains available for program purposes. In order for a State or ITO to be awarded a portion of these funds, or for funds to be released, ACF must have on file a request from the State or Indian Tribe for additional funds, or the release of funds.

a) Indicate the amount of funds that:

- i) the State or Tribe does not expect to utilize for the upcoming fiscal year; or
- ii) an amount that the State or Tribe is requesting if funds become available in order to carry out the activities in the CFSP.

b) Indicate the amount of Federal funds that the State or Tribe is requesting if additional funds become available.

8. Child Abuse Prevention and Treatment Act (CAPTA) (States only).

Indicate the State's estimated CAPTA State Grant allocation as provided in the annual Program Instruction on the APSR. Supplemental funds may be available for distribution if there are States that are not awarded grant funds or there are unobligated funds available for redistribution. No matching funds are required for this grant.

9. Estimated Chafee Foster Care Independence Program (CFCIP) Funds (States only)

Indicate the estimated amount of CFCIP funds that the State expects to spend during the fiscal year on independent living activities as provided in the annual Program Instruction on the APSR.

10. Estimated Funds Allotted under Section 477 for Education and Training Vouchers (ETV) (States only)

11. Re-allotment of CFCIP and/or ETV funds for States

The Administration for Children and Families (ACF) is able to re-allot unneeded portions of State allocations of CFCIP and ETV funds to other States so that the total

appropriation remains available for program purposes. In order for a State to be awarded portions of these funds, or for funds to be released, ACF must have on file a request from the State for additional funds, or the release of funds.

a) Indicate the amount of funds that the State does not expect to utilize from their allotment during the upcoming fiscal year to carry out the CFCIP activities.

b) Indicate the amount of funds that the State does not expect to utilize from their allotment during the upcoming fiscal year to carry out the ETV activities.

c) Indicate the amount of funds the State is requesting if additional funds become available for CFCIP and/or ETV. A 20% State match is required. The State match amount should be reflected on the final SF-269 report.

12. Certification: This report must be signed and dated in the spaces provided. The signature and title of the official of the State agency, or Indian Tribal Organization, with authority to administer or supervise the administration of title IV-B, subparts 1 and 2 programs and, for States only, the CAPTA and CFCIP programs, must be included.

The tentative allocations are based on the premise that all States and Indian Tribes will apply for and receive the funds available to them. In the event that not all States or Indian Tribes apply for or receive their tentative allocations, those funds will be redistributed among eligible States and Indian Tribes, where permitted by statute. States receiving additional funds as a result of such a redistribution should submit information on the proposed use of such additional funds to the appropriate Regional Office of the Administration for Children and Families in the State's/Tribe's APSR. By signing this form the State/Tribal official assures that the State/Tribe will meet all applicable match requirements.
