SALLY DEVLIN: Sally Devlin from Pahrump,

4 PO Box \*\*\*\*, Pahrump, Nevada, 89\*\*\*\*. 775-\*\*\*\*\* I've  
5 been a resident in Pahrump since 1984 give or take. And  
6 what I want to add to my comment is on the railroad plan --  
7 and that's my field is transportation.

8 As far as I am concerned, there's 18 billion  
9 sitting in the pot doing nothing. And, therefore, the  
10 railroad should be built, but it should be a railroad  
11 like the European railroads, no noise like the European  
12 railroads, which I just came back from Russia and  
13 Europe. They're gorgeous, comfortable, and so on, to  
14 bring the tourists in. And that is what is needed.

15 And years ago when I lived in Reno, we took  
16 the overnight train from Sacramento to Reno to  
17 Virginia City and so on on the railroad, and it was a  
18 beautiful trip in the summer. In Las Vegas and up in  
19 this area, 24 hours a day, seven days a week. And I'm  
20 used to the economy of the area. Put in the railroad.  
21 Spend our money for something good instead of -- no  
22 canisters, no nothing. Put it to use for tourism.

23 All of the waste should go to the Nevada Test  
24 Site. And the high-level waste, plant it alongside  
25 Yucca Mountain. You'll never have the tunnel. We have

3

1 14,070 square miles of land that is -- belongs to the  
2 Navy, Air Force, and that's federal. And they should  
3 dump anything and everything they want.

4 They've been doing it since 1950, and they  
5 should continue. And don't contaminate the rest of the
