

5-9-97

Dear Mr Secretary,

Federal Trade Commission -

William Jr & Barbara Halterman
 PO Box 909
 Haines City FL 33845-0909

Made in The U.S.A. is a proud and highly regarded slogan, that is placed on The products manufactured in The United States 100% - and The Consumers have come to respect those three letters.

We as purchasers buy goods and products knowing that we are buying not only proven and reliable products, but those made with American talent and craftsmanship.

Not all our manufactures have gone overseas, or do they rely on foreign parts, and we have companies, making complete lines of apparel, and machinery, would you please grade their products?

Do not cheapen The products made in our great Country - Vote against lowering this barriers, uphold Made in The U.S.A. for products made 100% in The U.S.A. -

Thank You

William Halterman
