Don't change the 50 year standard for asserting U.S. origin at 98% of the manufacturing costs had been incurred here. Many companies at present make it nearly impossible to determine the country of origin. This is just another attempt to sell out U.S. consumers and workers in favor of the Multi-Nationals. Foreign goods had not reduced prices of "Name Brand" merchandise. It has just increased the profits of the distributor (name brand) and the retail outlet.

Don't change the law.

Edward K. Stecker  
Flagler Beach, Fla.
