Enough,

It is difficult enough to find our way to American made goods. There are always persons who will use children for labor. If there are no labels & if they mean nothing is: Walmart:

All of you (users & abusers) will have no home. I want all labels to state exactly where they originate. I want to know if child labor is used, I will use my Constitutional Rights. I will vote & I will write letters:

I detest all of you that think you have all power. Guess what? You are in a very tenuous position. I Vote! You are out of here.
