Dear Sirs

As an consumer I want to know who put the products together where the fabrics, parts were made. Full + honest labeling.

I would not knowingly purchase guns from the Mafia and I don't want to unknowingly purchase products from Beijing Butchers. And China is not the only Nation I'd choose not to purchase products from. Morocco, Saudi Arabia, Iran, Kuwait, Pakistan, North Korea, Laos, Vietnam, Ethiopia, Cuba and several countries in the former Soviet Union. These all support wide spread torture, killings, rape, illegal imprisonment, child sweatshops and untold human rights violations. To purchase from these nations is to give support to their secret silenced holocaust.

Yes these Nations would like to label their products with our name. They'd love to buy our good name. Because they don't have one.

As our Federal Agency I hope that you will not sell out or be duped into their "market mixed product" ~~or~~ deception. I hope you be sure the American public is given Full honest labeling of products sold in this country. We want the full truth concerning products that are presented to us.

Thank You.

Mrs D.J. Howell
