Made in the USA Policy Comment  
Office of the Secretary, FTC, Room  
Sixth & Pennsylvania Ave., NW.  
Washington, DC 20580

Gentlemen:

I was ashamed to read recently that we  
have hired officials with the lack of  
honesty and integrity who want to change  
~~the meaning of "Made in USA"~~! There is  
no other meaning! I prefer to buy USA  
made products and I am sick of so  
much foreign made junk. If I don't  
really need it, I pass it up. At least  
give me a choice, and please don't lie  
to me.

If only we could get honesty back in  
our government, what a difference it  
would make! need I say more?

Sincerely,  
A.M. Wilson
