To Whom It May Concern:

I am writing this letter because I am very concerned about what is happening to our Country. With more and more imports coming in to our Country, it is hard to find anything made here anymore. What will happen to our jobs? I feel it is a big mistake to change the labeling on our products. We now have labels that read, made in China, made in Taiwan, made in India, made in Mexico, so why is that a problem to be proud to say made in the U.S.A.?? God knows there is little enough made here already.

I would like to see all of

the old manufacturing buildings all over our Country opened up again, put our people back to work and go back full force, with made in the U.S.A. I understand we have to have fair trade, but, what is happening today is not fair trade.

No, no, no, to changing our labels, I'm sure it would benefit some retailers, but, not the consumers as far as I'm concerned.

Sincerely,
